**Flood Mitigation - Update**

1. Introduction and reason for report

- 1.1 At a meeting of this Committee on 7 June 2024, Members endorsed a report written by Cllr Georgiou on Flood Mitigation Measures for the Lynes Farm Development (strategic site 14 – land north of Hightown Road), and agreed 4 actions as a result (P/6306 refers). This report is to update Members on 3 of those actions, and to consider next steps.

2. Update on actions agreed

- 2.1 *That Hampshire County Council, as Lead Local Flood Authority, be requested to carry out a Section 19 investigation into the area in the vicinity of Strategic Site 14 (land north of Hightown Road), in particular to ensure that the proposed flood mitigation measures for a development of up to 400 dwellings and 3 hectares of employment are adequate.*

This request was sent to HCC on 10 June 2024. This followed a previous request for a Section 19 investigation, sent on 6 March 2024, following the presentation to this Committee on 1 March by a member of HCC's Flood and Water Management Team (P/6263 refers). To date, there has been no response to either request.

- 2.2 *That, in relation to planning application 21/10042, New Forest District Council, as the Planning Authority, be requested to:*
- i) arrange for the developer's flood mitigation calculations to be checked by an independent Flood Risk engineer; and*
  - ii) review the costs and procedures for maintaining the proposed flood mitigation measures to ensure they are sufficient.*

This request was sent to NFDC on 10 June 2024, and the Planning Officer replied to say it would be considered. Again, this followed a previous request for a review sent on 6 March 2024 when the then Planning Officer replied to say the request had been passed to the planning agent for a response and they would reply when this was to hand. No further response was received.

- 2.3 *That the Environment Agency be invited to attend a future Committee meeting to talk about flood defence measures for homes and grants available.*

Having spoken to the Environment Agency representative who recently attended a meeting of Sopley Parish Council, it is understood that was part of a Property Flood Resilience capital project and the EA was seeking to engage with individual property owners in the area. This project does not currently extend to Ringwood. However, concerns about flood mitigation for the two strategic sites were discussed, and it is hoped this will lead to a further conversation with the EA on this matter.

3. Update on current situation

- 3.1 Since writing her report, Cllr Georgiou has been monitoring the Environment Agency's flood risk maps, which are currently being updated for publication in 2025. These were last published in 2019, the data from which will have informed the Flood Risk Assessments for the strategic sites at Hightown and Moortown. As the new maps are prepared, they are being uploaded to the EA's Flood Risk portal for use by planners and developers.

- 3.2 Cllr Georgiou reports that both strategic sites have been upgraded to Flood Risk 3, which adds further weight to the evidence outlined in her report and the requests made to NFDC and HCC.
  - 3.3 As consideration of the planning application for the Moortown site is currently pending, and completion of the s106 agreement for the Hightown site is due by the end of the year, it is considered that the time is right to ensure that sufficient scrutiny has been given to the Flood Risk Assessments for both sites.
4. Issues for decision and any recommendations
- 4.1 It is therefore **RECOMMENDED** that representatives of New Forest District Council (Planning), Hampshire County Council (Flood and Water Management) and the Environment Agency be invited to meet with the Town Council to consider the impacts of the increased flood risk to both strategic sites and the surrounding area, and to ensure that any agreed flood mitigation measures are sufficient.
